Application/Control Number: 09/750,894 Page 2

Art Unit: 1713

1. Due to amendments and persuasive arguments by applicant, the previous rejections of record based on Müller-Rees et al. and/or Ramlow et al. have been overcome and are hereby withdrawn.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. These amendment to new claim 11 were made to bring the claim and it's dependent claims within the scope of the allowable subject matter according to claim 1. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS

In claim 11, line 5, before "0.50", insert –less than--.

In claim 11, line 5, after "0.50", delete "or less".

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: While Müller-Rees et al. teach a thermoplastic composition comprising a crosslinked cholesterol liquid crystal pigment, they do not teach the pigments to be contained in the

Application/Control Number: 09/750,894

Art Unit: 1713

composition in a quantity less than 0.50 parts per weight. As most of the examples in Müller-Rees et al. exemplify significantly higher concentrations, Müller-Rees et al. is not suggestive of lower concentrations.

Some prior art teach crosslinked cholesterol liquid crystal pigments and other prior art teach thermoplastic compositions comprising various concentrations of comprising organic pigments. However, none of the prior art was found to teach or sufficiently suggest the present transparent/translucent thermoplastic composition comprising at least one cholesterol liquid crystal polymeric plate shaped pigment, wherein the pigment is in a quantity of less than 0.50 parts by weight based on 100 parts by weight of the thermoplastic material.

Thus, claims 1-14 to the composition, the process of using the composition and the article prepared from the composition are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Kelechi C. Egwim whose telephone number is (571) 272-1099. The examiner can normally be reached on M-T (7:30-6:00).

Art Unit: 1713

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
